

## America's Bio and Pharma Manufacturing Renaissance

Tuesday, September 15, 2020 1:00 – 4:00 pm EDT

The Covid-19 Pandemic vividly demonstrates the need for rethinking ways to manufacture biological materials and create sustainable medical product supply lines for the United States. New program funding, new regulatory schemes and new community engagement are all solutions as we witness the renaissance of life science manufacturing in the US from Delaware to Alabama to California. Join a discussion of best bio and pharma manufacturing practices, public policies and programs to help the US respond to the Covid-19 Pandemic and create a more resilient manufacturing infrastructure.
